

PRESERVATION OF BOOKS AND DOCUMENTS

INSECTS TRAP MODEL

Necessary material

- White cardboard
- Double-sided adhesive tape
- Regular adhesive tape
- Scissors
- box-cutter

Assembly instructions

1. Draw the model on the cardboard with dimensions similar to those indicated (see Trap model ");
2. Cut out the trap;
3. Fold the trap along the lines indicated in dashed lines;
4. Cut out the area that is marked in red: this window will make it easier to check the trap;
5. Glue the double-sided adhesive tape to the inside of the trap, where the insects will pass (see Image 1);
6. Join the ends of the trap, using ordinary adhesive tape, so that it is closed (the fold "1" must be on the fold "2");

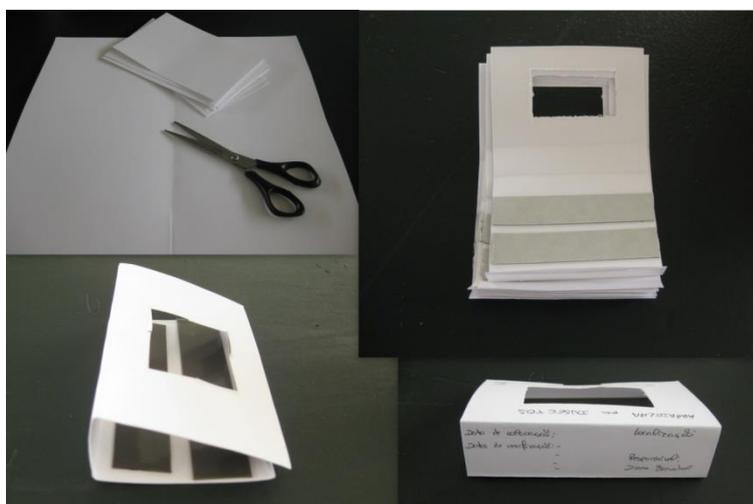

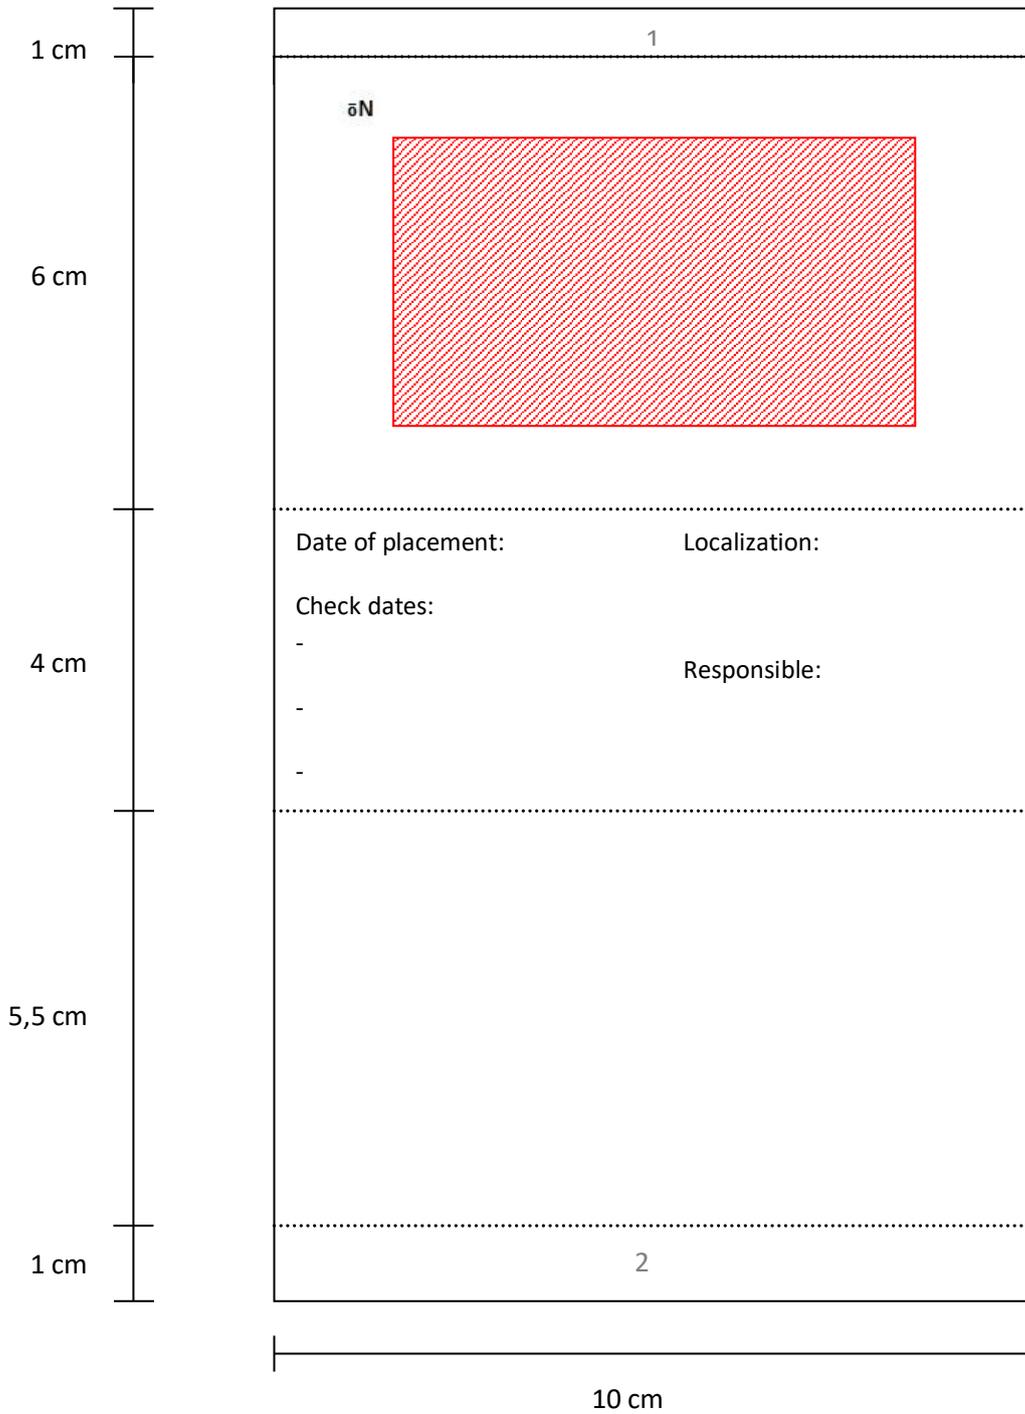

Image 1

Information to be recorded in the trap

- Trap number
- Date of placement
- Check dates
- Localization

- Responsible for the trap
